WORK EXPERIENCE

Full-Stack Developer

April 2022 - Jan 2025

KeyAffiliates

- Designed and developed the company's system webpage using PHP, JavaScript (jQuery), and CSS (Bootstrap), ensuring a responsive and user-friendly interface.
- Managed the systems integrations with external systems for seamless connectivity.
- Continuously improved the system design, usability, and performance, ensuring a consistent and engaging user experience.
- Managed and optimized large databases using SQL to ensure efficient data retrieval, secure storage, and data integrity.

Full-Stack Developer (Intern)

Jan 2022 - Apr 2022

MeeShop

- Build a new page builder with VueJs, Tailwind, and Laravel.
- I was part of a team of 4 developers to find creative solutions for customers.
- Regularly improved the system's design, ease of use, and speed to provide users a smooth and enjoyable experience.

Languages

- Danish(Full professional proficiency)
- English(Full professional proficiency)
- Arabic(Full professional proficiency).

Hobbies

- Playing chess
- Cooking
- Reading books
- Competitive programing
- Building personal projects

EDUCATION HISTORY

Bachelor in Software Development

Jan 2020 -Jun 2022

KEA (Københavns Erhvervsakademi)

The education put a strong emphasis on software craftsmanship over the redundant theory. The knowledge I received was immediately applied to create working programs.

AP in Computer Science

Sep 2016 -Jan 2019

Zealand (Næstved Erhvervsakademi)

The education taught me the fundamentals of programming and project management.
